## II. AREA CONCENTRATES

[Note: Africa has only counted a concentration for the minor, because we haven't had enough courses to be able to run it as a major concentration (that would require 24 credits). For the last few years I've been listing it as a concentrate by calling it Africa and its Diaspora. This is tight (45 credits are listed here but many are rarely offered), but it could work because students can still borrow up to six credits from other concentrates]
