

Employees Granted Time-Off for COVID-19 Vaccinations

Governor Cuomo recently signed legislation granting employees time off to receive a COVID-19 vaccination. Effective immediately, employees will be granted up to four hours of excused leave per injection that does not need to be charged against any other leave the employee has earned or accrued. For State employees, time off to receive the COVID-19 vaccination can be requested by using the non-chargeable drop down menu in Time and Attendance. SUNY programmers are working to add a specific non-chargeable category as soon as possible.
